OUR NEW SECURITY CHALLENGES FROM COVID-19

Protect Your Cyber Space

Due to COVID-19, organizations instituted teleworking policies to keep employees safe.

Organizations are planning their physical return, but the transition will take time. Cyber-criminals and nation-state sponsored attackers will continue to exploit tele-work to deliver malware via phishing and drive-by download.

We must stay vigilant.

Malware Trends

Ransomware

REvil/Sodinokibi, Ryuk, CoronaVirus Ransomware; file encryption plus data leak threats

Commodity Malware
